

Constellation Software Inc. Announces the Acquisition of Systems & Software Incorporated

Toronto, Canada, December 3, 2007— Constellation Software Inc. (“Constellation”) (TSX: CSU) announced today that it has acquired the business of Vermont-based Systems & Software Incorporated (“SSI”).

As a result of the purchase, SSI and its flagship enQuesta CIS will become part of the portfolio of Customer Information Systems (CIS) software solutions for Constellation’s Harris Operating Group (“Harris”). SSI will operate as an independent division of Harris and will continue to sell, develop and enhance enQuesta CIS and provide support and service to SSI customers.

Harris CEO Jeff Bender stated, “We are very pleased with our ability to complete the purchase of SSI. SSI and enQuesta will be great additions to our Customer Choice strategy and provide Harris and its customers with unparalleled choice among the best solutions available in the marketplace. Harris provides the level of corporate and financial stability as well as market leadership that the CIS market needs and wants. Our business model positions us to succeed for our customers and our employees – providing the best of both worlds.”

“The acquisition of SSI, with just under 90 employees, is a good example of Constellation’s business model,” commented John Billowits, Chief Financial Officer of Constellation. “As one of our larger tuck-in acquisitions in the utility space, SSI will provide Harris with another key platform to complement its growth strategy.”

“We are pleased with the amount of capital we have deployed in 2007,” said Bernard Anzarouth, VP, Business Development of Constellation. “Including companies acquired in Q4, we have deployed US\$52M on acquisitions in 2007. This is the most capital we have deployed on acquisitions in any one year.”

About Constellation:

Constellation’s common shares are listed on the Toronto Stock Exchange under the symbol “CSU”. Constellation Software is an international provider of market leading software and services to a number of industries across both the public and private sectors. Constellation acquires, manages and builds vertical market software businesses that provide mission-critical software solutions to address the specific needs of its customers in those industries.

About Harris:

Harris is a wholly-owned subsidiary of Constellation and is a leading provider of financial management and Customer Information Systems (CIS) software solutions. Since 1976, Harris has focused on providing feature-rich and robust turnkey solutions to all levels of local government, public power and water entities as well as school districts throughout North America. Harris' focus is on creating long-term relationships with our customers and ensuring that we meet the changing needs of our customers over time. Forward Looking Statements

Certain statements herein may be "forward looking" statements that involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of Constellation or the industry to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These statements reflect current assumptions and expectations regarding future events and operating performance and speak only as of the date hereof. Forward looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not such results will be achieved. A number of factors could cause actual results to vary significantly from the results discussed in the forward looking statements. These forward looking statements are made as of the date hereof and Constellation assumes no obligation to update any forward looking statements to reflect new events or circumstances.
